Strength For Life

S4L is a supervised strength training program exclusively for participants over 50 years of age. Train in a group environment with your own personalised program.

A typical class starts with a fun and simple group warm up. Next you spend approximately 30-40 mins on your strength program (including both pin loaded machines and free weights). We finish together with a cool down and a series of stretches.

The strength for life program will:

Help you maintain your independence

Make daily tasks easier

Improve your flexibility, vitality and general wellbeing

Develop and maintain muscle mass, endurance and strength

Give you the opportunity to make new friends and have fun!

Anyone over the age of 50 can join!

Our programs are suitable for all levels of ability, and are tailored to everyone's specific needs and limitations

We offer a safe supportive environment within our private air conditioned studio

You are welcome to come along and observe any of our sessions
